HINSDALE & TROY

Cheshire County is a member of the Community Power Coalition of New Hampshire. In 2022 the Cheshire County Delegation approved the Cheshire Community Power Plan and authorized the county to launch Community Power. Visit our website or call our toll-free customer service number for more information.

What is Community Power?

Community Power allows customers to save money and expand their energy choices through economy of scale. The program pools the electricity demand of participating customers to increase buying power and expand local control. The program is self-funded through electric bill payments. No taxpayer funds are used to cover program expenses. The program will only launch if it can offer a lower rate.

What does Community Power mean for you?

All residents in Cheshire County are eligible to opt into the program. If you are a resident in one of the participating communities listed, you will be mailed notification detailing the program, including the initial supply rate and clean energy options. 30 days after the mailing, Community Power becomes the new default energy supply option.

Who will deliver my electricity?

Electric distribution utilities (Eversource, Liberty, Unitil, NH Electric Co-op) continue to own and operate the electric grid, respond to outages, and bill customers.

Community Power Coalition of New Hampshire is a nonprofit public power company. The Coalition represents over 60 New Hampshire communities and is governed *"for communities, by communities."* We help expand energy choices for cities, towns, and counties statewide.

Community Power is voluntary. Customers can opt-in, -out, -up, or -down any time.
